

A photograph of a modern office interior. The ceiling is painted a vibrant blue and features exposed ductwork and lighting fixtures. In the foreground, a round wooden table is surrounded by grey chairs, with a large red cylindrical pendant light hanging above it. The background shows a long, open-plan office space with white desks, black office chairs, and glass-walled meeting rooms. A wooden partition wall is visible on the right side. The floor is covered in a patterned carpet with shades of green and grey.

HAWORTH®

High Profile International Network Vendor Singapore

Case Study

A high profile international network vendor asked Haworth the refurbish their existing Singapore space to match their position at the forefront of mobile technology innovation. The budget and timeframe were tight, but we were able to deliver an outstanding solution for 160 employees in just eight weeks.

The network giant wanted a space that demonstrated its leadership in the field with the latest technological advances in workplace furniture. We provided an entire floorplate solution, from flexible workstations to ergonomic task-seating, meeting rooms to collaborative equipment.

Intuity workstations provide an innovative workspace solution to help create the ultimate environment for creativity and innovation while responding to varying work styles. For focus work, IQ Pods and Openest offer a chance to find a quiet place away from the office action, while AP Planes tables support greater collaboration.

Very, Fern and X99 task-seating deliver multiple options for staff to find their perfect chair for all-day comfort. In client-facing and break out areas, Chick Pouf lounge chairs, Sushi, Orangebox and Matzform sofas are paired with Maria side tables for an edgy, innovative look in keeping with the company's values.
