

HAWORTH

European Colour Collection Product Matrix

2024 Q1

Colour your life

The every day work environment can be both an emotional and sensory experience – directly affecting an individual's personal engagement through design.

We believe that good design shouldn't be hard to specify. The European Colour Collection is designed with the philosophy that our fabrics and finishes are offered broadly across our various product lines (unless constrained by manufacturing processes) allowing designers to blend products simply and easily.

At Haworth we ensure our fabrics satisfy the highest quality standards so they look and feel good for years on end. Needless to say, we offer a vast variety of materials and colours for all kinds of furniture.

The broad spectrum of surfaces we offer at Haworth ranges from real wood and veneer to melamine and glass, giving you every opportunity to select the right solution to suit your specific requirements.
