Chairs

A chair is a personal choice. Few things in the workplace evoke a more physical and emotional attachment. It is perhaps the essential component of a healthy working environment. Good ergonomic seating enables concentration and minimizes the distractions that stem from being uncomfortable.

Soji

Thoughtfully designed and informed by ergonomics, Soji is a highly-adjustable task chair that syncs your body and mind the second you sit down – for healthier levels of performance and well-being, no matter where you work.

Designed by Arne Dassen

Fern

The Fern desk chair is easy, natural and unhindered. Inspired by nature, it is in tune with your every move.

Grounded in extensive ergonomic research, Fern's design puts the person at the centre with ergonomic innovations that provide total back support, edgeless comfort, and free movement.

The result is a next-generation sitting experience that is distinctively responsive to each person. The chair works with you, not against you so you can sit better, work better, and feel better in today's changing workplace.

Designed by Haworth Design Studio & ITO Design

Fern provides a comfortable, engaging sitting experience that creates good feelings, keeping you balanced and centred in your chair. Its approachable design is less machine and more human, with mechanics discreetly integrated into a warm, residential design.

Lotus

The iconic Lotus line includes a low back side chair, mid back conference chair, and high back executive chair.

Nia

Traditional task chairs contrast the increasingly residential-themed workplace aesthetic.

Nia with its slim upholstered profile and concealed mechanisms finally creates a chair that compliments this aesthetic without compromising performance.

The ideal work environment for today's knowledge worker provides support where it's needed and freedom where it's wanted. Designed to support activity during the workday, Nia offers the rich comfort of a lounge chair with the precise engineering of a performance task chair – it combines comfort, performance and aesthetics in one product. Its slim design hides a smart mechanism that, extensive testing has shown, provides remarkable comfort however you sit in it.

Design by Haworth Design Studio & brodbeck design

Nia, the First Active Seating Chair is designed to blend the style and comfort of lounge chair with the performance of a task chair, creating a solution for many different work settings, from meeting / conference rooms, focus work areas and collaboration.

Nia gives workers the seating posture that best suits them but ensures that they will be supported and experience maximum comfort during their work.

Intermezzo by Haworth

True to her philosophy of sustainable materials and aesthetics, Patricia Urquiola designed the Maari seating family with few, durable and high-quality materials. In 2021, she challenged the Haworth International team to produce a 100% recycled and recyclable version of the Maari iconic plastic shell. The result is the black shell is made from “zero waste production”.

Maari

Maari lets you furnish many spaces with a family of seating – one of the largest in the market.

Designed by Patricia Urquiola, Maari is based on a one-piece, delicately textured, moulded shell that’s the same for all chairs. Choose any base with the same shell for a breadth of applications.

The Maari family of seating brings interiors to life through simple specification for a range of applications. Maari is everywhere – its gentle and inviting design offers simplicity and warmth in an aesthetic that provides balance within a space. Maari wood base chair offers timeless classic seating to complement almost any interior – from traditional to contemporary.

Hi Pad

The HiPad stools have a clean and crisp design that makes them suitable for residential and contract settings. They have obtained the Greenguard Gold certification, which guarantees they have been designed with the utmost attention to health and well-being.

Design by Jasper Morrison for Cappellini

Lounge

Lounge areas bring together the home's comfort and the office experience. Other than being a resting place within work, a lounge area is also fit for activities such as group meetings or a discussion area for project teams. Your lounge space can be where great ideas and innovation are born.

Lud'ò

The Lud'ò lounge chair transcends the boundaries of furniture into the world of fashion. Central to its design is the padded duvet that covers the armchair like a jacket – easily replaced to suit personal tastes and seasonality.

Design by Patricia Urquiola for Cappellini

Cabana Lounge

Cabana Lounge offers the attention to detail you would expect from Haworth's collaboration with Patricia Urquiola.

Cabana Lounge is the first sofa system designed to deliver optimal user performance, comfort, and design to create unique destination spaces in the office environment, enabling effective individual and collaborative work. Its flexible design suits a variety of needs for both focus work and rejuvenation – on your own or with a group.

Design by Patricia Urquiola

The centre of work is no longer just the workstation. People seek alternative places to collaborate or work alone. The best workplaces offer both “we” space for connection, collaboration and innovation, and “me” space for privacy and focus without distraction.

3 Fauteuil Grand Confort, grand modèle

A modern expression of the traditional club chair, 3 Fauteuil Grand Confort, grand modèle is based on Le Corbusier's original design from the 1920's. Today, these modern classics remain contemporary and iconic. 3 Fauteuil Grand Confort, grand modèle offers a generous seating area in all versions: lounge chair, two-seat sofa, or three-seat sofa.

Haworth Cardigan Lounge™ by Haworth

Orla by Cappellini

Haworth Cardigan Lounge™

Designed for flexible and collaborative work environments.

Haworth Cardigan Lounge™'s flexible digital knit seatback supports different postures and a variety of uses – a very relaxed cocoon-like attitude for casual interactions with colleagues to comfortable, supportive use for focus work within the home or office setting.

Design by Patricia Urquiola

The digital knit is made from 100 % recycled PET. The production minimizes waste since all knits are engineered to the exact dimensions. Haworth Cardigan Lounge™ also avoids glue, replaced with simple mechanical assembly systems.

Desks & Tables

Your daily work needs places to spread out and stay organized. Explore the variety of our designs, from height-adjustable tables to folding conference or training tables, from personal laptop tables to coffee tables.

HiYa

HiYa is a freestanding, height-adjustable table that provides an extended range of adjustment to accommodate more people and their diverse workstyles.

With its human-centered features, HiYa doesn't compromise functionality. A simple, intuitive paddle provides easy adjustment and control over the individual workspace. Built-in collision sensor technology detects obstructions with a high level of precision to minimize collisions and avoid possible damage to the table and other items in the work area.

Design by Haworth Design Studio

Height-adjustable tables encourage posture changes to promote movement and well-being, so people can comfortably do their best work.

PopUp

Today's mobile workforce seeks choice and flexibility in spaces that support a culture of collaboration.

The PopUp table offers a community space for individuals or small groups to gather. Create an inviting destination through its warm, welcoming aesthetics designed for cafés, training areas, open office spaces, enclaves, and huddle rooms – wherever interaction or socialising occurs.

Design by Steffen Lipsky

PopUp tables support engaged user postures while accommodating personal items with optional bag hooks for convenient access. The compact surface and option for casters encourage people to move around with flexibility for a variety of group activities.

A communal, fresh-looking setting with visual cues of informality and open space. Park Bench fosters a collaborative environment where individuals and teams huddle, incubate ideas and socialise.

Intuity Park Bench

As part of the Intuity family, Park Bench inherits the tradition and design of the Intuity platform.

Intuity Park Bench can be used to create a collaborative setting where teams can huddle, incubate ideas, and socialise. Depending on the activity, Intuity Park Bench offers a playful range of work tools that suit the unique requirements of the individual. To support spontaneous collaboration, or quick touch-downs Park Bench ensures you can always find somewhere to place your belongings. The table provides features such as hooks for your handbags and a foot rest which can act as a platform for heavier luggage.

Meanwhile, distinctive leg and table options with variety of colour options provide unique flavours, and Intuity Park Bench standing height on wheels can be easily moved or re-oriented to create new office configurations or support distancing requirements.

Partitions & Privacy

Office spaces are getting smaller yet are expected to do more. Organizations seeking to maximize their real estate investments require smart, multi-use, and agile products that improve efficiency while supporting the diverse ways people work. Partitions and freestanding architectural workspaces are a smart, responsive alternative, providing a sense of permanence while ensuring your endless ability to adapt.

BuzziNest Booth

BuzziNest Booth is all you need to reduce distracting noise from any workplace.

The compact booth offers a private solo space to work and take calls without being disturbed or disturbing others, even in an open plan office. Due to its upholstered exterior and fabric panels on the interior, BuzziNest Booth effectively dampens sound from every direction to create maximum peace and quiet for everyone in the office, whether you are working inside the booth or out.

Available in both left- or right-handed models and a range of different colours and fabrics, BuzziNest Booth will fit right into your office decor, and is easy to install. Built-in castors can be suspended from the base to help move the acoustic booth to a new spot, which can then be secured by putting it back on its feet.

Design by BuzziSpace Studio

Customize your BuzziNest Booth by selecting from several fabrics and colours for both the outside and the inside. And fit it with a worktop and a stool so you can work in peace.

HushHybrid

HushHybrid is an acoustic booth that provides a comfortable, calm and quiet workplace.

The HushHybrid acoustic booth provides a space for focused work and better video conferencing. The ability to install a computer or screen for work and aesthetically illuminate the user's face with additional side LED lighting ensures that the user's video is optimised during video calls. The work desk inside with adjustable depth can be adapted to the individual needs of the user.

HushHybrid is a mobile pod with integrated wheels. This system allows you to freely reorient the acoustic booth around the office space.

The pod glass can be customized with additional stickers increasing privacy, due to the “frosting” effect.

Design by Hushoffice Design Team

HushHybrid provides users with the maximum amount of space needed, taking up as little office space as possible. Lighting and airflow can be user adjusted, while a motion sensor automatically activates the booth.

Active Components

Open and light in scale, the Active Components product line is a set of storage solutions to enhance a workspace.

Through integration with Haworth's product portfolio, Active Components helps improve efficiency in compact footprints with products that support user performance, posture changes, memory cues, collaboration, and focus work.

Design by Haworth Design Studio

Active Components makes clever use of space. Suspended pieces provide smart, multi-use storage while accessories and floating shelves create vertical storage to free up more working area.

It offers a clean, uniform aesthetic without limiting application possibilities.

Be_Hold

Haworth's Be_Hold office storage range was designed in collaboration with Patricia Urquiola.

From open shelves and cupboards to private lockers and sliding door cabinets, Be_Hold puts the core functional elements of storage into designer furniture.

Be_Hold is a unique organisational system that elevates storage beyond a functional purpose and becomes a focal point of design. Be_Hold seeks to structure spaces and support different work styles – from highly collaborative to focused – while leveraging design elements that transform your workplace.

Colourful cabinets – Be_Hold Design is a unique organisational system available in a wide range of colours, materials and functional elements.

Design by Patricia Urquiola

Be_Hold is much more than an office cabinet. Its human-focused design allows you to structure your workplace to support different work styles while dividing the space for privacy.

Lighting & Accessories

When lighting is right, it's brilliant. When it's wrong, there's little else you can focus on. Nothing transforms an environment like lighting, and nowhere is that more important than the social and high impression spaces that draw people in and reflect your brand. Here some inspiration for well-lit spaces.

BuzziZepp

As an impressive, suspended shield, BuzziZepp offers acoustic control that visually delineates space and creates a sense of tranquility.

BuzziPleat

A ceiling hanging acoustic panel, with optional LED light to turn it into a pendant lamp.

BuzziPleat reinterprets ancient techniques used in fashion design, like smocking and pleating, to create large-scale, yet lightweight sculptural forms made of sound-absorbing BuzziFelt. The BuzziPleat framework relies on the tension of its own fabrication, rather than an internal support structure, to create neat, yet flexible forms that look organic.

Design by 13&9 for BuzziSpace

The traditional craft of hand pleating is applied to construct BuzziPleat. Creating the architectural folds takes more than 140 minutes of steady hand and eye coordination and results in a maximized surface area that delivers exceptional acoustic performance.

BuzziPlanter

BuzziPlanter acts as a divider to break up open spaces into tranquil, green environments. It is available in 6 sizes. The bigger it is, the more sound-absorbing. The pots have a built-in plastic container, making them suitable for both real and artificial plants. Thanks to a wide variety of upholstery colours it easily fits any decor.

Design by BuzziSpace Studio

Bandas Space

A flexible line of runner carpets with unlimited possibilities

Bandas Space is a playful and flexible line of rugs. Use them alone, place them end to end for a long runner, or mix and match patterns to create wider rugs with unique designs. Crafted of 100 percent wool and embellished with a variety of decorative techniques, Bandas Space brings warmth and comfort to the workplace.

Design by Patricia Urquiola

All Bandas Space pieces are handcrafted. Each one is as unique as the woman who creates it. Durable yet soft and beautiful, the textured materials evoke a rich warmth with patterns of neutral tones and pops of colour.

Day Box

Simple support for mobility in modern workspaces

As activity-based work develops, organisations need to seek solutions to facilitate their workforce's daily life. While moving from one space to another, from focused work to a meeting room or a group workshop, modern workers need easy solutions to transport their office equipment. Light but spacious, the Day Box allows one to gather and move belongings in a flash. It comes in the complimentary colours to the Active Components range, thus ensuring a perfect match for the space.

Design by Haworth Design Studio

The Day Box takes up little space and easily fits on a cabinet or shelf, or hooks onto desks with our Active Components hook. The Day Box is available in white, blue and green.
