Haworth Health helps our design partners and customers align people and space for optimal performance in healthcare. Our broad portfolio enables space design that reaches beyond traditional healthcare settings.

Choose from a breadth of furnishings that ensure comfort, durability, and ease of cleaning to meet the demanding requirements of healthcare facilities. Complemented by a full array of systems and freestanding furniture, movable walls, and technology solutions, our human-centered designs foster well-being, leading to positive outcomes. From the moment you walk into a healthcare facility, all the way to individual patient care rooms, we provide solutions to ensure a thoughtful experience for patients, caregivers, and family members alike.

Our community spaces are designed to be welcoming areas for working, eating, and a quiet pause for relaxing. We create workspaces for caregivers to provide the best care, along with administrative areas that keep healthcare organizations operating smoothly. And we focus on the patient experience with intentional solutions for consultation, treatment, and patient rooms.
Thoughtfully designed, welcoming spaces for family and visitors enable connection and enrich the guest experience. Lobby, lounge, café, and outdoor areas offer spaces for people to rejuvenate, restore, and relax in comfort.
