

HAWORTH

European Colour Collection

Fabrics & Finishes

January 2023

Overview

Haworth is committed to keeping our colour, material, and finish offerings fresh and current, providing you with:

- Offerings that are designed to complement a variety of organizational cultures and support changing workstyle environments.
- The latest high-performance textiles and an inspiring global palette that enhance our new products and design direction.
- Design freedom to mix, match, layer, and coordinate different colours, materials, and finishes, giving you the tools to fully express the personality of a company's brand.
- Fun, playful, and human-centric options for today's evolving workspaces.

Our Sustainability Commitment

Haworth's latest material and finish offerings have the durability and sustainability our customers expect.

Using recycled fibers, as well as water-based paints and stains, we provide environmental solutions wherever possible.

Sustainability features of our fabric collections include:

- OekoTex Standard 100 certified fabrics
- EU Ecolabel certified fabrics
- Cradle-2-cradle certified fabrics
- Second nature and GRS recycled fabrics
- Fabrics made of Ocean plastic

Our Partners

The Haworth Colour Collection is designed with the philosophy that our fabrics and finishes are offered broadly across our various product lines (unless constrained by manufacturing processes) allowing designers to blend products simply and easily.

At Haworth we ensure our fabrics satisfy the highest quality standards so they look and feel good for years on end. Needless to say, we offer a vast variety of materials and colours for all kinds of furniture.

The broad spectrum of surfaces we offer at Haworth ranges from real wood and veneer to melamine and glass, giving you every opportunity to select the right solution to suit your specific requirements.

We create partnerships with companies that conform to our values and ensure added value for our customers.

Cleaning Guide

Overview

General Instructions

The following instructions are recommendations only. While these instructions are usually effective, each circumstance is unique, and we cannot guarantee the treatments will be completely successful.

Fabric Care

General maintenance: Wipe with a mild detergent and warm water. Stain removal: Wipe with a non-abrasive cleaner, rinse with warm water and dry with a soft cloth.

Most fabrics can be easily maintained by simply vacuum cleaning or brushing and cleaning with dry foam. Leather finishes should be wiped down with a slightly damp cloth or a recommended leather cleaner.

Wood

Dust your wood furniture regularly to avoid build-up of dirt and grime that can dull the finish. Dust with a clean damp cloth following the grain of the wood. Wipe clean with a soft, dry cloth. Do not use excess amounts of water and do not allow water to stand on the wood surface.

Other Material

Leathers: Wipe down with barely damp cloth or use a recommended leather cleaner.

Glass: Spray with a glass spray and wipe with a soft dry cloth.

Metal: Wipe with a mild detergent and warm water. For metal storage and chair bases, avoid getting the moving parts damp.

Cleaning & Disinfecting

Cleaning is used to remove dirt from surfaces for general hygiene and maintenance.

Cleaning **tools** include soap, water, and a damp cloth or other non-disinfectant cleaners.

Disinfecting removes up to 100% of bacteria, fungi and viruses from surfaces. Used primarily for hygiene reasons in homes, offices and medical settings

Disinfecting **tools** include various disinfectant solutions depending on the material of the surface being cleaned.

List

The following slide will show the recommended cleaning and disinfection solutions per each Haworth fabric and material category.

Disinfection guidelines

Most workplace surfaces can be cleaned with these three cleaning solutions:

Disinfecting Wipes

These recommendations are for the purposes of **disinfection** only. For general **care and maintenance** instruction related to the upkeep of a product's aesthetics over time, please refer to the Care and Maintenance guide.

(containing Quaternary compound disinfectant)

Look for products whose active ingredient is a Quaternary Ammonium Compound or "Quat" disinfectant

Make sure the wipes **do not include** bleach

Alcohol disinfectants

70% medical alcohol (70% is minimum recommended by CDC)

Disinfecting spray without bleach

Cleaners containing Hydrogen peroxide
