

HAWORTH

Lightweight Desktop Separation Screen

May 2020

Desktop screens can be used to create physical separation between workpoints, supporting people's well-being and performance. This lightweight corrugated plastic screen attaches with a double-sided adhesive that won't damage surfaces. Available in two heights and an adjustable width, the lightweight desktop separation screen can be used on variety of fixed and height-adjustable worksurfaces.

Features

- Lightweight corrugated plastic construction
- Available in 24" and 30" heights
- Works on both 24" and 30" deep surfaces
- Adjustable width from 42" to 72"
- Easy, no-tool assembly and attachment
- Back cut-out allows for cord management or monitor arm mounting
- May be disinfected with a diluted bleach solution
- Ships flat, eight screens per carton
- 100% recyclable

Pictured are just some of the solutions we can provide to help you balance the needs of people and space as you return to the workplace. Visit haworth.com/rtw or contact your Haworth representative for more information.
