

HAWORTH

Task Seating Choices for Cleanability

May 2020

All Haworth task seating is easily cleanable with soap and water or disinfecting wipes to support employee well-being and your facility needs. Optional back jackets and fully wrapped upholstery offer more efficient cleaning, as well as a comfortable, attractive aesthetic. For advanced cleaning and disinfection options, order chairs with bleach cleanable fabric, faux leather, or leather. These include popular choices, such as Brisa, Nature, and Wellington.

Back Jacket Features – Zody and Very

- Seat upholstery and back jacket material options include bleach cleanable fabrics, faux leathers, and leather for easier and more efficient cleaning/disinfecting
- Back jacket wraps around top trim of chair leaving mesh on back of chair exposed; mesh and frame can be cleaned with soap and water or disinfecting wipes
- Base in polished aluminum, painted aluminum, or plastic can be cleaned with disinfecting wipes

Zody® Task Chair

Very® Task Chair

Fully Upholstered Features – Fern and Soji

- Fern's back may be upholstered in faux leather, and the seat may be leather or faux leather
- Soji may be fully upholstered in fabric, leather or faux leather
- The back of the Soji Task upholstery comes standard with a woven fabric backer. For additional cleanability, a bleach cleanable option is available through Tailored Solutions™
- Mesh and frame can be cleaned with soap and water or disinfecting wipes
- Base in polished aluminum, painted aluminum, or plastic can be cleaned with disinfecting wipes
