

HAWORTH

# Gallery Panels & Desktop Screens

May 2020

Tailored Solutions

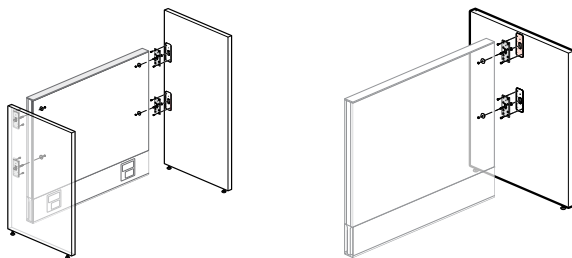

Gallery panels and desktop screens can be used to create physical separation between workpoints, supporting people's well-being and performance. A variety of sizes, shapes, and finishes are available to accommodate both new and existing applications.

These are just some examples of solutions we can provide. Through our understanding of employee well-being, organizational culture, and floorplate transformation, we will work with you to customize configurations for your unique needs. Please contact your dealer for more information and ordering assistance.
