This Haworth North American price book contains US list prices. Canadian customers can convert the US list price into their Canadian equivalent by going to www.Haworth.com/Canada to find the current Canadian multipliers. These multiplier factors allow you to convert the US list price into a Canadian list price.
The following overview explains how information is organized within the Intuity® Benching price list.

**1. Front Cover**
- Includes the price book title and pricing effectivity date.

**2. Canadian Conversion / Update Page**
- Pricing conversion information for converting US pricing into the equivalent Canadian pricing is located on the footer of this page.
- All Price Book updates will be listed on this page including the date, page number and description of the update.

**3. Price List Table of Contents**
- Price List table of contents with page numbers.

**4. Statement of Line**
- Provides a pictorial outline of the entire product offering.

**5. Price List**
- Each price list page contains the following:
  - Product Illustration
  - Catalog Number
  - To Order Specify – sequencing for ordering product options and finishes
  - List Prices
  - Product Specification Dimensions
  - Features
  - Specification Tips
  - Class, Discount Group Number (used for discounting) and GSA information

**6. Finishes, Fabrics and COM**
- Lists information for material finishes and availability.
- Provides COM information and requirements (if applicable).

**7. Index**
- Products are listed alphabetically by alpha-numeric catalog numbers with price list page number.

**8. Warranty Policy and Terms of Sale**
- Provides information about the Haworth policy for non-obsolescence, warranty and Terms-of-Sale.

**Additional Information and Resources**
Prices are subject to change without notice or approval. Haworth dealers should always submit proposals through Lynx before presenting to customers. See North American Terms of Sale for more information.

**Online Resources**
- [haworth.com](http://haworth.com)
  - Haworth’s corporate website provides access to price books and a variety of other resources and publications.

- [surfaces.haworth.com](http://surfaces.haworth.com)
  - Website provides access to the most current fabrics and finishes offered across Haworth’s various product lines.

**Features**
- Includes two fixed-height steel leg assemblies, support beam, rail, worksurface support brackets, and integrated below-surface utility tray.
- Available with or without the following:
  - Power distribution assembly
  - Full access hatches for back edge of worksurface
- Fixed-height legs are 28”(711mm) to bottom of worksurface with glides fully recessed.
- Glides provide 0.5”(13mm) leveling adjustment.
- Leg accent plate is located in the top center section of each leg assembly and allows for a user-specified accent color for aesthetic purposes.
- Access hatch option includes two hinged doors that extend the full width of the surface for easy access to power distribution assembly and utility tray. The doors are 4.25”(108mm) deep and provide a 1”(25mm) gap between the hatch and worksurface.
- Field assembled

**Specification Tips**
- For **in-line** benching applications only; not for return benching applications.
- A Single Sided Starter Kit may be used as a stand alone desk.
- Requires Single Sided Add-On Kit(s) for an in-line single sided benching application. Leg from the Single Sided Starter Kit is repositioned to the end-of-run.
- For use with Intuity worksurface, specified separately.
  - Surface depth must match depth of the add-on kit.
  - Kit with no access hatches, option (-C) supports a rectangular worksurface.
  - Kit with access hatches, option (-S) supports a rectangular worksurface for use with access hatches.
- Angled Legs are required for Knife Edge worksurface option.
- Rail features an inset channel for use with Intuity Screens, Belong Plus Screens and Active Components Center Screens.
- Single Sided Starter Kit is always standard with utility tray in a powered or non-powered application.
- Below worksurface power access is standard with 3-circuit, 4-circuit or hardwire power option.
- In 3- and 4-circuit power applications the Power Distribution Assembly (PDA) will accept a maximum of two separately specified triplex receptacles.
- Hardwire power option (-C) includes two junction boxes; conduit is field supplied.
- Separately specify electrical components for **in** and **out** power path. Do not mix 3-circuit with 4-circuit components. Do not mix 2+2 and 3+1 components.

**To Order, Specify:**
1) Product number, including:
   - **Leg Type:**
     - I Straight Leg
     - A Angled Leg
   - **Power Type:**
     - N Non-Powered
     - 3 3-Circuit, see chart for upcharge
     - 4 4-Circuit 2+2, see chart for upcharge
     - 4 4-Circuit 3+1, see chart for upcharge
     - C Hardwire, see chart for upcharge
   - **Access Hatches:**
     - C No Access Hatches
     - S Access Hatches, add Trim A: $219.15 list
       Trim B: $235.44 list

2) Leg color*.
3) Accent plate color*.
4) Universal rail/utility tray color*.
5) Access hatch color* (if applicable).

*Note: Upcharge for mixed grade trim surfaces; refer to the electronic design and specification tools for pricing.

### Single Sided Add-On Kit

#### Features
- Includes one shared, fixed-height steel leg assembly support beam, rail, worksurface support brackets, and integrated below-surface utility tray.
- Available with or without the following:
  - Power distribution assembly and power jumper
  - Full-width access hatches for back edge of worksurface
- Integrated utility tray on non-powered starter rails provides cable management and routing only.
- Attaches to a Single Sided Starter Kit, or to another Add-On Kit to extend the overall length of the bench.
- Fixed-height legs are 28\( \frac{3}{4} \) (711mm) to bottom of worksurface with glides fully recessed.
- Glides provide 0.5\( \text{ in} \) (13mm) leveling adjustment.
- Power distribution assembly provides locations for two separately specified triplex receptacles, providing below-surface power access at the back edge.
- A power jumper is included to connect adjacent power distribution assemblies.
- Access hatch option includes two hinged doors that extend the full width of the surface for easy access to power distribution assembly and utility tray. The doors are 4.25\( \text{ in} \) (108mm) deep and provide a 1\( \frac{3}{4} \)\( \text{ in} \) (25mm) gap between the hatch and worksurface.
- Field assembled

#### Specification Tips
- For in-line benching applications only; not for return benching applications.
- Requires Single Sided Starter Kit for an in-line, single sided benching application. Leg from the Single Sided Starter Kit is repositioned to end of run.
- Multiple Single Sided Add-On Kits may be used with one Single Sided Starter Kit.
- For use with Intuity worksurface, specified separately.
- Surface depth must match depth of the add-on kit.
- Kit with no access hatches, option (-C) supports a rectangular worksurface.
- Kit with access hatches, option (-S) supports a rectangular worksurface for use with access hatches.
- Angled Legs are required for Knife Edge worksurface option.
- Rail features an inset channel for use with Intuity Screens, Belong Plus Screens and Active Components Center Screens.
- Single Sided Add-On Kit is always standard with utility tray in a powered or non-powered application.
- Below worksurface power access is standard with 3-circuit, 4-circuit or hardwire power option.
- In 3- and 4-circuit power applications the Power Distribution Assembly (PDA) will accept a maximum of two separately specified triplex receptacles.
- Hardwire power option (-C) includes two junction boxes; conduit is field supplied.
- Separately specify electrical components for in and out power path. Do not mix 3-circuit with 4-circuit components. Do not mix 2+2 and 3+1 components.

### Features
- Includes two fixed-height steel leg assemblies, two support beams, rail, and surface support brackets.
- Available with or without the following:
  - Power distribution assembly
  - Below-surface utility tray; standard in charcoal
  - Full-width access hatches for back edge of worksurfaces
  - Fixed-height legs are 28" (711mm) to bottom of worksurface with glides fully recessed.
  - Glides provide 0.5" (13mm) leveling adjustment.
  - Leg accent plate is located in the top center section of each leg assembly and allows for a user-specified accent color for aesthetic purposes.
  - Power distribution assembly provides locations for four separately specified triplex receptacles (2 on each side), providing below-surface power access at the back edge of each worksurface.
  - Access hatch option includes four hinged doors (two on each side) that extend the full width of the surfaces for easy access to power distribution assembly and utility tray. The doors are 4.25" (108mm) deep and provide a 1" (25mm) gap between the hatch and worksurface.
  - Field assembled.

### Specification Tips
- For in-line benching applications only; not for return benching applications.
- Requires Double Sided Add-On Kit(s) for an in-line double sided benching application. Leg from the Double Sided Starter Kit is repositioned to the end-of-run.
- For use with Intuity worksurfaces, specified separately.
  - 24" (610mm) D surfaces must be used with 48" (1219mm) D Double Sided Starter Kits, and 30" (762mm) D surfaces must be used with 60" (1524mm) D Double Sided Starter Kits.
  - Kit with no access hatches, option (-C) supports rectangular worksurfaces.
  - Kit with access hatches, option (-S) supports rectangular worksurfaces for use with access hatches.
  - Angled Legs are required for Knife Edge worksurface option.
  - Rail features an inset channel for use with Intuity Screens, Belong Plus Screens and Active Components Center Screens.
  - Below worksurface utility tray is optional for a non-powered application. Recommended if below worksurface cable management is needed.
  - Below worksurface power access is standard with -3, -4 circuit or hardware power option.
  - In 3- and 4-circuit power applications the Power Distribution Assembly (PDA) will accept a maximum of four separately specified triplex receptacles; two per each side of Double Sided Starter Kit.
  - Hardware power option (-C) includes two junction boxes; conduit is field supplied.
  - Separately specify electrical components for in and out power path. Do not mix 3-circuit with 4-circuit components. Do not mix 2+2 and 3+1 components.

### Features
- Includes one shared, fixed-height steel leg assembly or column, two support beams, rail, and surface support brackets.
- Available with or without the following:
  - Power distribution assembly and power jumper
  - Below-surface utility tray; standard in charcoal
  - Below-surface utility tray
  - Column leg option provides an enclosed cavity and removable cover for routing power up from the floor. Column leg is 13"(330mm)D x 3"(76mm)W on the inside and 15.75"(400mm)D x 3.15"(80mm)W on the outside.
  - Power distribution assembly provides 150 circuits for four separately specified triplex receptacles; two per each side of Double Sided Starter Kit.
  - Hardware power option (C) includes four junction boxes; conduit is field supplied.
  - Separately specify electrical components for in and out power path. Do not mix 3-circuit with 4-circuit components. Do not mix 2+2 and 3+1 components.
- Glides provide 0.5"(13mm) leveling adjustment.
- Column leg option provides an enclosed cavity and removable cover for routing power up from the floor. Column leg is 13"(330mm)D x 3"(76mm)W on the inside and 15.75"(400mm)D x 3.15"(80mm)W on the outside.
- Power distribution assembly provides 150 circuits for four separately specified triplex receptacles; two per each side of Double Sided Starter Kit.
- Power distribution assembly provides locations for four separately specified triplex receptacles (two on each side), providing below-surface power access at the back edge of each worksurface.
- A power jumper is included to connect adjacent power distribution assemblies.
- Access hatch option includes four hinged doors (two on each side) that extend the full width of the surfaces for easy access to power distribution assembly and utility tray. The doors are 4.25"(108mm) deep and provide a 1"(25mm) gap between the hatch and worksurface.
- Field assembled.

### Specification Tips
- For in-line benches applications only; not for return benching applications.
- Requires Double Sided Starter Kit for an in-line double sided benching application. Leg from the Double Sided Starter Kit is repositioned to end of run.
- Multiple Double Sided Add-On Kits may be used with one Double Sided Starter Kit.
- For use with Intuity worksurfaces, specified separately.
  - 48"(1219mm) deep kits require 24"(610mm) deep worksurfaces
  - 60°(1524mm) deep kits require 30"(762mm) deep worksurfaces
  - Kit with no access hatches, option (-C) supports rectangular worksurfaces.
  - Kit with access hatches, option (-S) supports rectangular worksurfaces for use with access hatches.
- Angled Legs are required for Knife Edge worksurface option.
- Column Leg provides intermediate shared support, additional knee clearance, and power and cable management.
- Rail features an inlet channel for use with Intuity Screens, Belong Plus Screens and Active Components Center Screens.
- Below worksurface utility tray is optional for a non-powered application. Recommended if below worksurface cable management is needed.
- Below worksurface power access is standard with 3-, 4-circuit or hardware power option.

### Specifications Tips, continued:
- In 3- and 4-circuit power applications the Power Distribution Assembly (PDA) will accept a maximum of four separately specified triplex receptacles; two per each side of Double Sided Starter Kit.
- Hardware power option (C) includes four junction boxes; conduit is field supplied.
- Separately specify electrical components for in and out power path. Do not mix 3-circuit with 4-circuit components. Do not mix 2+2 and 3+1 components.

#### To Order, Specify:
1. **Product number**, including:
   - **Leg Type**:
     - T: Straight Leg
     - S: Angled Leg
     - F: Column Leg, add $364.70 list
   - **Power Type**:
     - N: Non-Powered
     - 3: 3-Circuit, see chart for upcharge
     - 4: 4-Circuit, 2+2, see chart for upcharge
     - 4: 4-Circuit, 3+1, see chart for upcharge
   - **Access Hatches**:
     - C: No Access Hatches
     - S: Access Hatches, add Trim A: $438.30 list
     - Trim B: $470.98 list
   - **Leg color** *
   - **Universal rail color** *
   - **Access hatch color** *(if applicable)*

   *Note: Upcharge for mixed grade trim surfaces; refer to the electronic design and specification tools for pricing.

Features
- Includes two fixed-height steel leg assemblies, two support beams, one center post leg, two rails, worksurface support brackets, integrated below surface utility tray and 120° single corner cap.
- Available with or without the following:
  - Power Distribution Assemblies (2) and Flex Connector (1).
- Fixed height legs are 28”(711mm) to bottom of worksurface with glides fully recessed.
- Glides provide 0.5”(13mm) leveling adjustment.
- Leg accent plate is located in the top center section of each leg assembly and allows for a user-specified accent color for aesthetic purposes.
- Field assembled.

Specification Tips
- May be used as a stand alone desk.
- Requires Single Sided Add-On Kit(s) for an in-line single sided benching application. Leg from the 120° Single Sided Starter Kit is repositioned to the end-of-run.
- Not for use in a return benching position.
- For use with Intuity 120° worksurface; specified separately.
- Access Hatch not available on 120° kits.
- Angled legs required for knife edge worksurface option.
- Rail features an inset channel for use with Intuity Screens, Belong Plus Screens or Active Components Center Screens.
- 120° Single Sided Kit is always standard with utility tray in a powered or non-powered application.
- 3-circuit, 4-circuit or hardwire power options are standard with below worksurface power access location.
- In 3- and 4-circuit power applications the Power Distribution Assembly (PDA) will accept a maximum of four separately specified triplex receptacles.
- Hardwire power option (-C) includes four junction boxes; conduit is field supplied.
- Separately specify electrical components for in and out power path.
- Do not mix 3-circuit with 4-circuit components. Do not mix 2+2 and 3+1 components. Components have unique polarity key and color coding (3-circuit=black, 2+2=blue and 3+1=green).

To Order, Specify:

120° Double Sided Three Pack Starter Kit

**Features**
- Includes three fixed-height steel leg assemblies; three center post legs, six support beams, three rails, worksurface support brackets and 120° three-way cap.
- Available with or without the following:
  - Power Distribution Assemblies (3) and Flex Connectors (2).
  - Below-surface utility tray; standard in charcoal. Powered application always includes utility tray. Optional for non-powered application only.
- Fixed height legs are 28” (711mm) to bottom of worksurface with glides fully recessed.
- Glides provide 0.5” (13mm) leveling adjustment.
- Leg accent plate is located in the top center section of each leg assembly and allows for a user-specified accent color for aesthetic purposes.
- Field assembled.

**Specification Tips**
- **For 120° applications:**
  - May be used in the following applications:
    - Stand alone desk
    - With Double Sided Add-On Kit
    - With Double Sided 120° add-on Kit
  - Requires three separately specified 120° Intuity worksurfaces:
    - 48” (1219mm) deep kit require 24” (610mm) deep worksurfaces
    - 60” (1524mm) deep kit require 30” (762mm) deep worksurfaces
  - Access Hatch not available on 120° kits.
  - Angled legs are required for Knife Edge worksurface option.
  - Rail features an inset channel for use with Intuity Screens, Belong Plus Screens and Active Components Center Screens.
  - Below worksurface utility tray is optional for a non-powered application but recommended if below worksurface cable management is needed.
  - Below worksurface utility tray is standard for 3-circuit, 4-circuit and hardwire options.
  - 3- and 4-circuit or hardwire power options are standard with below worksurface power access location.
  - In 3- and 4-circuit power applications the Power Distribution Assemblies (PDA) will accept a maximum of twelve separately specified triplex receptacles.
  - Hardware power option (-C) includes six junction boxes; conduit is field supplied.
  - Separately specify electrical components for in and out power path.
  - Do not mix 3-circuit with 4-circuit components. Do not mix 2+2 and 3+1 components. Components have unique polarity key and color coding (3-circuit=black, 2+2=blue and 3+1=green).

# 120° Double Sided Three Pack Add-on Kit

## Features
- Includes one fixed-height steel leg kit, three center post legs, six support beams, three rails, worksurface support brackets and 120° three way cap.
- Fixed height leg kit includes legs for one shared condition and one end-of-run condition.
- Available with or without the following:
  - Power Distribution Assemblies (3) and Flex Connectors (3).
  - Below-surface utility tray, standard in charcoal. Powered application always includes utility tray. Optional for non-powered application only.
- Fixed height legs are 28°(711mm) to bottom of worksurface with glides fully recessed.
- Glides provide 0.5°(13mm) leveling adjustment.
- Column leg option provides an enclosed cavity and removable cover for routing power up from the floor. Column leg is 13"(330mm)D x 3"(76mm)W on the inside and 15.75"(400mm)D x 3.15"(80mm)W on the outside.
- A power jumper is included to connect to adjacent power distribution assembly. Field assembled.

## Specification Tips
- For 120° applications.
  - Not for stand alone applications.
  - Must be used with additional kits.
  - Requires Double Sided Starter Kit for benching application. Leg from Double Sided Starter Kit is repositioned to end-of-run.
  - Requires three separately specified 120° Intuity worksurfaces: 48"(1219mm) deep kit require 24"(610mm) deep worksurfaces 60"(1524mm) deep kit require 30"(762mm) deep worksurfaces
  - Access Hatch not available on 120° kits.
  - Angled legs are required for Knife Edge worksurface option.
  - Column leg provides intermediate shared support, additional knee clearance, and power and cable management.
  - Rail features an inset channel for use with Intuity Screens, Belong Plus Screens and Active Components Center Screens.
  - Below worksurface utility tray is optional for a non-powered application but recommended if below worksurface cable management is needed.
  - Below worksurface utility tray is standard for 3-circuit, 4-circuit and hardwire options.
  - 3-circuit, 4-circuit or hardwire power options are standard with below worksurface power access location.
  - In 3- and 4-circuit power applications the Power Distribution Assemblies (PDA) will accept a maximum of twelve separately specified triplex receptacles; two per each side of the 120° Double Sided Starter Kit.
  - Hardwire power option (-C) includes six junction boxes; conduit is field supplied.
  - Separately specify electrical components for in and out power path.
  - Do not mix 3-circuit with 4-circuit components. Do not mix 2+2 and 3+1 components. Components have unique polarity key and color coding (3-circuit=black, 2+2=blue and 3+1=green).

## To Order, Specify:
1. Product number, including:
   - **Leg Kit:**
     - W Shared Straight Leg and Straight Leg
     - Y Shared Angled Leg and Angled Leg
     - X Column Leg and Straight Leg, add $325.57 list
     - Z Column Leg and Angled Leg, add $325.57 list
   - **Power Type:**
     - N Non-Powered
     - 3 3-Circuit, see chart for upcharge
     - 4 4-Circuit 2+2, see chart for upcharge
     - 4-Circuit, 3+1, see chart for upcharge
     - C Hardwire, see chart for upcharge

</table>

#### Features
- Includes one fixed-height leg assembly, brackets, and attachment hardware.
- Leg is 28”(711mm) to bottom of worksurface with glides fully recessed.
- Glides provide 0.5”(13mm) leveling adjustment.
- Field assembled.

#### Specification Tip
- Allows a return worksurface to be attached to the front edge of a rectangular worksurface to create a return.
- Cannot be used in freestanding applications.

#### To Order, Specify:
1) Product number.
2) Trim color.

**Features**
- Includes 1.19” (30mm) thick laminate or wood worksurface and attachment hardware.
- Available with edgeband or knife edge.
  - Edgeband worksurface has 3mm edgeband on user edge, 1mm edgeband on sides and back.
  - Knife edge worksurface has knife edge on user edge, 1mm edgeband on sides and back.

**Specification Tips**
- For in-line benching applications only; not for return benching applications.
- For use with starter kit or add-on kit with no access hatches, option (-C).
- When attached to starter or add-on kit, worksurface has a 1” (25mm) gap between the back edge of the surface and the rail.
- In double sided applications, there is a total of 3.64” (92mm) between the back edges of the surfaces (includes depth of rail and gap between rail and worksurfaces).
- May not be supported by attached lower storage.
- Angled Legs are required for Knife Edge worksurface option.
- X Series 23” (584mm) deep, box/file, mobile pedestal will not fully nest beneath a 24” (610mm) deep worksurface with a Utility Tray.
- May be used with Active Components attached storage. See Active Components Price List.
- May be used with Belong Work Tools and Accessories, Adjustable Keyboard Pads and Monitor Arms.

**To Order, Specify:**
1. **Top Option:**
   - Laminate: L
   - Wood: W

2. **Edge Option:**
   - Laminate: J
   - Knife: F
   - Wood: K
   - Knife: U

2) Laminate or Wood finish color.
3) Edge trim color (laminate only).

**Features**

- Includes 1.19"(30mm) thick laminate or wood worksurface and attachment hardware.
- Available with edgeband or knife edge.
  - Edgeband worksurface has 3mm edgeband on user edge, 1mm edgeband on sides and back.
  - Knife edge worksurface has knife edge on user edge, 1mm edgeband on sides and back.
- For use on Starter Kits and Add-On Kits specified with access hatches.

**Specification Tips**

- For in-line benching applications only; not for return benching applications.
- For use with Starter Kit or Add-On Kit with access hatch options (-S).
- Access hatches at the back of the worksurface are factory-installed with Starter Kit or Add-On Kit.
- 24"(610mm) deep worksurface provides 20"(508mm) of depth from the front edge to the access hatches.
- 30"(762mm) deep worksurface provides 26"(660mm) of depth from the front edge to the access hatches.
- Gap between back edge of worksurface and access hatches is 1"(25mm).
- Angled Legs are required for Knife Edge worksurface option.
- X series 23"(584mm) deep, box/file/mobile pedestal will not fully nest beneath a 24"(610mm) deep worksurface with a Utility Tray.
- Only for use with Active Components attached storage. See Active Components Price List.
- May be used with most Belong Work Tools and Accessories, Adjustable Keyboard Pads and Monitor Arms (with special clamp); refer to the appropriate price list pages for details.

**To Order, Specify:**

1) Product number, including:

- **Top Option:**
  - L Laminate
  - W Wood

2) **Edge Option:**

- L Laminate
- J Edgeband
- F Knife
- U Knife

2) Laminate or Wood finish color.

3) Edge trim color (laminate only).

### Features
- Includes 1.19" (30mm) thick laminate or wood rectangular worksurface.
- Available with edgeband or knife edge.
  - Edgeband worksurface has 3mm edgeband on user edge, 1mm edgeband on sides and back.
  - Knife edge worksurface has knife edge on user edge, 1mm edgeband on sides and back.
- Attaches along the front of a benching surface using return leg kit, specified separately.

### Specification Tips
- Worksurface is not available with access hatches and is non-powered.
- Worksurface is not available with a rail and does not accept an Intuity screen.
- Specify surface depth to match return leg depth.
- Knife edge return has square edges on sides; when used with a knife edge benching surface, edge profile of return will not match front edge of benching surface. To avoid a gap in edge profiles, specify benching surface with edgeband.

### To Order, Specify:
1. Product number, including:
   - Top Option:
     - L Laminate
     - W Wood
   - Edge Option:
     - Laminate:
       - J Edgeband
       - F Knife
     - Wood:
       - K Edgeband
       - U Knife
2. Laminate or Wood finish color.
3. Edge trim color (laminate only).

#### Features
- Includes 1.19”(30mm) thick laminate or wood worksurface and tie plate.
- Available with edgeband or knife edge.
- Edgeband worksurface has 3mm edgeband on the user edge, 1mm edgeband on sides and back.
- Knife edge worksurface has knife edge on user edge, 1mm edgeband and on sides and back.
- Optional wireway along back edges of worksurface is color-matched to solid side/back edge trim. When wood veneer, wood grain or patterned laminate is specified, wireway will be charcoal. Refer to Specification Guide for wireway details.
- Depths and widths shown in nominal dimensions.

#### Specification Tips
- For 120° single or three-pack applications; not for return benching applications.
- When attached to a starter or add-on kit, worksurface has a 1”(25mm) gap between the back edges of the surface and the rail.
- In double sided applications, there is a total of 3.64”(92mm) between the back edges of the surfaces (includes depth of rail and gap between rail and worksurfaces).
- May not be supported by attached lower storage.
- Angled legs are required for Knife Edge worksurface option.
- X Series 23”(584mm) deep, box/file, mobile pedestal will not fully nest beneath a 24”(610mm) deep worksurface with Utility Tray.
- Only for use with Active Components attached storage. See Active Components Price List.
- May be used with Belong Work Tools, Accessories, Adjustable Keyboard Pads and Monitor Arms.

#### To Order, Specify:
1) Product number, including:
   - **Top Option:**
     - L Laminate
     - W Wood
   - **Edge Option:**
     - Laminate:
       - J Edgeband
       - F Knife
     - Wood:
       - K Edgeband
       - U Knife
   - **Wireway Option:**
     - A Notched
     - B Without

2) Laminate or Wood finish color.
3) Edge trim color (laminate only).
**Tie Plate**  
ZBBP-0000-PN  
SIN 33721: Discount Group XXIII

**Features**  
- Includes painted tie plate and attachment hardware.  
- Tie plate is used to connect a single sided kit to a double sided kit.  
- Required for pass-through power.  
- Standard in Black.

**Number**  
ZBBP-0000-PN

**Price**  
$28.62

**To Order, Specify:**  
1) Product number.  
(No finish specification required.)

---

**Double-Sided Utility Tray End Covers**  
EUEC-0000  
SIN 33721: Discount Group XXIII

**Features**  
- Includes two covers and hardware.  
- For use on double sided kits.  
- Standard in Black.

**Number**  
EUEC-0000

**Price**  
$109.10

**To Order, Specify:**  
1) Product number.  
(No finish specification required.)

---

**120° Infeed Cover**  
EBEC-0000-F  
SIN 33721: Discount Group XXIII

**Features**  
- Includes 3-piece cover and attachment hardware.  
- Optional cover is used to conceal infeed for electrical application and/or cover three center post legs.  

**Specification Tip**  
- Only for use with Three Pack 120° workstations.

**Number**  
EBEC-0000-F

**Price**  
$216.51 $233.13

**To Order, Specify:**  
1) Product number.  
2) Trim color.

---

**Access Hatch Gap Filler**  
ZBRA-0000-D  
SIN 33721: Discount Group XXIII

**Features**  
- Includes painted aluminum extrusion(s) and attachment hardware.  
- Fits between a starter and add-on kit, or between two add-on kits, to fill the gap between the access hatches.  
- Single sided includes one filler piece; double sided includes two filler pieces.

**Specification Tip**  
- Single sided filler piece and double side filler piece are specific to the application and cannot be interchanged.

**Number**  
ZBRA-0000-S $ 77.65 $ 95.59  
ZBRA-0000-D $107.86 $125.80

**To Order, Specify:**  
1) Product number.  
2) Trim color.

---

**Accessory Rail Mounting Bracket Kit, Double Sided**  
BABD-0000  
GSA: Open Market

**Actual Height**  
3” (76mm)

**Actual Depth**  
13.75” (349mm)

**Number**  
BABD-0000

**Price**  
$116.12

**Features**  
- Includes two mounting brackets and attachment hardware.  
- Allows attachment of two accessory rails (back-to-back) in a double-sided application.  
- Brackets are black finish color.

**To Order, Specify:**  
1) Product number  
(No finish specification required.)

<tr>
<td></td>
<td>300&quot;(7620mm)</td>
<td>EUEH-00W0-3</td>
<td>720.59</td>
</tr>
</tbody>
</table>

Features
- Includes electrical harness in galvanized metal conduit.
- Conduit for 3-Circuit includes eight 12-gauge wires for up to three 20 amp circuits of power.
- Conduit for 4-Circuit includes six 12-gauge and two 10-gauge wires for up to four 20 amp circuits of power.
- Can be used to route power from floor to power distribution assembly.
- For use with components equipped with power.
- Attaches at any receptacle site or right-hand jumper location.

Specification Tips
- Not for use with power sources other than 120 volt 60 hertz.
- A vertical base feed cover is a separately specified option.
- Exposed split tubing may be field supplied separately to cover exposed galvanized metal conduit.
- Do not mix 3-circuit with 4-circuit components. Do not mix 2+2 and 3+1 components. Components have unique polarity key and color coding (3-circuit = black; 2+2 = blue; 3+1 = green).
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

<tr>
<td>4-Circuit, 3+1</td>
<td>EUEB-0000-4HY</td>
<td>$452.14</td>
<td></td>
</tr>
</tbody>
</table>

Features
- Includes one junction box with modular connector, flexible steel conduit and three 0.5"(13mm) knockouts.
- Conduit for 3-Circuit includes eight 12-gauge wires for up to three 20 amp circuits of power.
- Conduit for 4-Circuit includes six 12-gauge and two 10-gauge wires for up to four 20 amp circuits of power.
- For use with components equipped with power.
- Attaches at any receptacle site or right-hand jumper location.
- For floor, column or wall hardwire connections.
- Conforms to New York City electrical code.

Specification Tips
- Not for use with power sources other than 120 volt 60 hertz.
- A vertical base feed cover is a separately specified option.
- For installation on components 42"(1067mm) or larger.
- Conduit and fittings for connection between building and junction box are supplied by local electricians.
- Do not mix 3-circuit with 4-circuit components. Do not mix 2+2 and 3+1 components. Components have unique polarity key and color coding (3-circuit = black; 2+2 = blue; 3+1 = green).
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

</tbody>
</table>

### Features
- Includes connector assembly which consists of one Power Base connector head, galvanized 0.5” (13mm) flexible metal conduit, one Power Base AI connector head and a two port splitter.
- Conduit for 3-Circuit includes eight 12-gauge wires for up to three 20 amp circuits of power.
- Conduit for 4-Circuit includes six 12-gauge and two 10-gauge wires for up to four 20 amp circuits of power.
- For use with components equipped with power.
- Attaches at any receptacle site or right-hand jumper location and to a Power Base AI underfloor power system.

### Specification Tips
- Not for use with power sources other than 120 volt 60 hertz.
- A vertical base feed cover is a separately specified option when used with Intuity.
- Exposed split tubing may be field supplied separately to cover exposed galvanized metal conduit.
- Excess length can be coiled under floor.
- Do not mix 3-circuit with 4-circuit components. Do not mix 2+2 and 3+1 components. Components have unique polarity key and color coding (3-circuit = black; 2+2 = blue; 3+1 = green).
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

## Jumper

<table>
<thead>
<tr>
<th>Description</th>

<td>24” (610mm)</td>
<td>EUEJ-0024-4</td>
<td>$177.19</td>
</tr>
</tbody>
</table>

### Features
- Includes flexible metal power jumper with safety latches.
- For use with power components.
- Jumpers cannot be coupled together.
- Field installed.

### Specification Tips
- Jumpers are used to connect between Power Distribution Assemblies mounted in Utility Trays in an in-line benching application.
- One 24” (610mm) jumper is included with Add-On Kit.
- For use with Intuity product reconfigurations.
- Do not mix 3-circuit with 4-circuit components. Do not mix 2+2 and 3+1 components. Components have unique polarity key and color coding (3-circuit = black; 2+2 = blue; 3+1 = green).
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

### Features
- Includes Power Distribution Assembly (PDA).
- Field installed.

### Specification Tips:
- Used to convert non-powered Utility Tray to powered.
- Separately Specify:
  - Receptacles
  - Jumpers
  - Power Infeeds
  - Utility Tray End Covers
- When adding retrofit kit, order PDA mounting brackets, service part #2305-8603, separately.
- Do not mix 3-circuit with 4-circuit components. Do not mix 2+2 and 3+1 components. Components have unique polarity key and color coding (3-circuit = black; 2+2 = blue; 3+1 = green).

### To Order, Specify:
1. Product number.
   (No finish specification required.)

**Features**

- Includes one 180"(4572mm) electrical harness in metal conduit, electrical box, ceiling bezel plate, pole and hardware.
- Conduit for 3-Circuit includes eight 12-gauge wires for up to three 20 amp circuits of power.
- Conduit for 4-Circuit includes six 12-gauge and two 10-gauge wires for up to four 20 amp circuits of power.
- For connection to the electrical source located in space above a drop ceiling.
- Removable cover on poles provides access to pathway.
- Top feed pole dimensions: 2.5"(64mm) x 8"(203mm).
- Harness attaches at any receptacle site or right-hand jumper location.

**Specification Tips**

- Not for use with power sources other than 120 volt 60 hertz.
- Electrical harness length is 180"(4572mm) regardless of pole length.
- Top Feed may interfere with Tool Rail or Screen applications.
- Floor mount Top Feed mounts to floor, attaches to desking worksurface at any side and ceiling.
- Floor attachment hardware is field supplied.
- Do not mix 3-circuit with 4-circuit components. Do not mix 2+2 and 3+1 components. Components have unique polarity key and color coding (3-circuit = black; 2+2 = blue; 3+1 = green).
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

**To Order, Specify:**

1) Product number.
2) Trim color.

### Features
- Includes box of six receptacles, each receptacle has three 15 Amp outlets (NEMA 5-15R configuration).
- For use with panels equipped with power components.
- Receptacles are ground type specific.

### Specification Tips
- Not for use with power sources other than 120 volt 60 hertz.
- For power access at any location within the panels with appropriate base raceway covers or technology pad.
- Isolated ground receptacle not for use with single circuit base feed module.
- Triplexes for 3-Circuit are field programmable.
- Triplexes for 4-Circuit have fixed circuit access and are not field programmable. Specify appropriate number of receptacles for each circuit.
- Do not mix 3-circuit with 4-circuit components. Do not mix 2+2 and 3+1 components. Components have unique polarity key and color coding (3-circuit=black, 2+2=blue and 3+1=green).
- Controlled receptacles are marked with a permanent symbol and the word CONTROLLED to comply with various energy code requirements including ASHRAE 90.1 and California Building Code Title 24 part 6.
- Circuit assignment and receptacle placement should be coordinated with a local electrician. Local electrician is responsible for circuit loading and code compliance.
- Consult with local authority having jurisdiction (AHJ) for requirements regarding controlled receptacles before placing orders and installation.

### Electrical Components

#### Triplex Receptacle – 20 Amp

**Features**

- Includes box of six receptacles, each receptacle has three 20 Amp outlets (NEMA 5-20R configuration).
- For use with panels equipped with power components.
- Receptacles are circuit and ground type specific.

**Specification Tips**

- Not for use with power sources other than 120 volt 60 hertz.
- Receptacles have fixed circuit access and are not field programmable.
- Specify appropriate number of receptacles for each circuit.
- For power access at any location within the panels with appropriate base raceway covers or technology pad.
- Isolated ground receptacle not for use with single circuit base feed module.
- Do not mix 3-circuit with 4-circuit components. Do not mix 2+2 and 3+1 components. Components have unique polarity key and color coding (3-circuit=black, 2+2=blue and 3+1=green).
- Controlled receptacles are marked with a permanent symbol and the word CONTROLLED to comply with various energy code requirements including ASHRAE 90.1 and California Building Code Title 24 part 6.
- Circuit assignment and receptacle placement should be coordinated with a local electrician. Local electrician is responsible for circuit loading and code compliance.
- Consult with local authority having jurisdiction (AHJ) for requirements regarding controlled receptacles before placing orders and installation.

</tbody>
</table>

**Features**
- Includes one electrical box, ceiling bezel plate, pole and hardware.
- For connection to the electrical source located in space above a drop ceiling.
- For routing and cabling capacities, refer to Specification Guide.
- Removable cover on poles provides access to pathway.
- Top feed pole dimensions: 2.5"(64mm) x 8"(203mm).

**Specification Tips**
- Not for use with power sources other than 120 volt 60 hertz.
- Top Feed may interfere with Tool Rail or Screen applications.
- Floor mount Top Feed mounts to floor, attaches to desking worksurface at any side and ceiling.
- Floor attachment hardware is field supplied.
- Application may require approval of local authority having jurisdiction (AHJ); ensure compliance before placing orders and installation.

**To Order, Specify:**
1) Product number.
2) Trim color.

---

### Hardwire Kit

<table>

</tr>
</tbody>
</table>

**Features**
- Includes one electrical box with 0.5"(13mm) knockouts, two receptacle cover plates, one blank cover plate and mounting hardware.
- Attaches to separately specified non-powered Utility Tray.
- Field installed.

**Specification Tips**
- Conduit, fittings, wiring and receptacles are field supplied.
- For single sided applications, specify service part #6240-4207 separately.

**To Order, Specify:**
1) Product number.
2) Trim color.

---

### Cover Plates

</tr>
</tbody>
</table>

**Feature**
- Includes four blank cover plates or receptacle covers and hardware.

**Specification Tips**
- For hardwire kit applications.
- Receptacle cover option (R) to be used with duplex receptacle. (Duplex receptacle field supplied).

**To Order, Specify:**
1) Product number.
2) Trim color.

**Cover Options:**
- **B** Blank cover
- **R** Receptacle cover; **$9.39** upcharge list.
## Base Feed Cover — Vertical

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

### Features
- Includes 2-piece base feed cover and attachment hardware.
- Optional base feed cover is used to conceal metal conduit and data cables.
- Base feed dimension: 2”(51mm) x 4.25”(108mm).

### Specification Tips
- Used to route power and data from floor, columns and walls to bottom of horizontal surface.
- Mounts under horizontal surface and attaches to floor.
- Floor attachment hardware is field supplied.

### To Order, Specify:
1. Product number.
2. Trim color.

Product Compatibility and Limited Warranty Policy

Great Expectations
You have them as a Haworth customer and so do we. And because we value our customers, we cover our products with the Haworth North America Product Compatibility and Limited Warranty Policy.

Our Commitment To Product Compatibility – Integrated Product Platforms
As a market leader in the design and manufacture of workspaces that adapt to change, we strive to maintain product compatibility within our various generations of integrated product platforms. This benefits the customer who desires to update or modify their work environment. It also benefits the customer needing to replace a product due to damage or other reasons but which is no longer manufactured or is otherwise unavailable, such as a fabric or finish that is discontinued because of changing market preferences. In both circumstances, we often can provide products with comparable function and performance.

Our Commitment To Product Quality – The Haworth North America Limited Warranty
To ensure customer satisfaction and peace of mind, we stand behind our products with the Haworth North America Limited Warranty. To review the current version of the limited warranty including its terms and conditions, please go to: www.haworth.com/warranty or contact OneTouch@Haworth.com or 1 877 429 6784.

Warranty Requests or Questions
For questions or service requests pertaining to the Haworth Limited Warranty, please contact your Haworth dealer. If you are unsure who your dealer is, please contact OneTouch@Haworth.com or 1 877 429 6784.

Effective: September 1, 2021

Terms of Sale
The Terms of Sale apply to all products in the North America Price Lists. To review the current version of the North American Terms of Sale, please go to: www.haworth.com/terms-of-sale or contact OneTouch@Haworth.com or 1 877 429 6784.

Effective: September 2, 2022
