### Seating COM Pattern Repeat Information
Haworth will calculate and order COM yardage as needed for seating; however, for bid/quote purposes, please refer to the COM yardage requirements listed by each chair model. These numbers are based on solid or very small scale (under 1"
repeat) fabrics.

For fabrics with repeats listed below, additional yardage should be included in your calculations. The additional yardage allows for matching of patterns on the seating.

COM Yardage Requirements

Procedure
To determine if a COM fabric has been approved for use on Haworth product, contact Haworth (1.800.426.8562), your local Haworth dealer, or go to surfaces.haworth.com. Haworth will calculate and order fabric unless instructed otherwise.

If the fabric is approved, and the directional orientation (directional rightway, directional railroad, or non-directional) of the tested fabric has been confirmed, then refer to the appropriate price page for yardage requirements.

COM Fabric Requirements
The fabric yardage requirements for COMs given for each model are in lineal yards and are based on 54” (1372mm) usable fabric widths. Approximate yardage requirements are shown for each model within the price pages.

COM fabrics are placed into Grades based on the cost per linear yard. If a fabric’s cost exceeds the range of our highest Grade it will be noted as Non-Graded. The product will be priced at Grade A; the COM fabric costs will appear as a separate line item. The fabric charge will be Haworth’s purchase cost plus a 4% administrative fee (based on the cost of the fabric). Yardage calculations will include any applicable fabric repeat.

COL Leather Requirements
The leather requirements for COL (Customer’s Own Leather) will vary depending on the hide size and are based on square footage. Haworth will determine and purchase the leather needed.

COM leather products will be priced at a leather Grade A; COL costs will appear as a separate line item. The leather cost will be Haworth’s purchase cost plus 4% administrative fee (based on the cost of the leather). Add the appropriate percentage shown below to the total yardage to accommodate fabric flaws, wrinkles and other imperfections.

Up to 500 yards Add 10%
501 to 1000 yards Add 5%
More than 1000 yards Add 3%

Directional Rightway:
- 54” or 66” Roll Width
- Panel Width
- Component Width

Directional Railroad:
- 54” or 66” Roll Width
- Panel Width
- Component Width

Non-Directional:
- 54” or 66” Roll Width

Cut in either direction to give best yield.
