Health Care Without Harm: Healthy Interiors Fabric List

In support of the Health Care Without Harm’s Health Interiors criteria, version 2.3:

- Fabrics listed below are free of vinyl (PVC), flame retardants, antimicrobial, stain and water repellent treatment (derived from per- or poly-fluorinated compounds).
- Customers are responsible for COM fabric compliance (chemical content and surface treatments).
- Additional fabrics may be added to the list once assessed and confirmed compliant.
- Refer to following website for additional compliant fabrics: [Health Care Without Harm](#)
- Fabrics listed are not intended for Wall applications.
- Fabrics shown below may not be available on all Health Care Without Harm compliant products listed, due to manufacturing constraints. See specification guides or Haworth Surface Collection websites for product fabric availability.
- Refer to Haworth Surface Collection websites for specific price grades.
